INTRODUCTION

RESULTS

CONCLUSIONS

A Positive Response

The results of the survey showed a high level of satisfaction among smallholder farmers with the support they received from the cocoa cooperative. The majority of farmers reported an increase in their income and an improvement in their living standards due to the assistance provided. The cooperative's initiatives, such as providing access to financial services and improving market access, were highly regarded.

Making a Difference Together in Cocoa

Together, we aim to create a sustainable cocoa ecosystem where smallholder farmers can thrive and enjoy improved living conditions. By empowering farmers and strengthening the linkages between them and the market, we believe that we can achieve this goal.

87% of the smallholder farmers were satisfied with the assistance received from the cooperative.
